

%

- electricity production, wind, >3MW turbine, onshore
- electricity production, photovoltaic, 570kWp open ground installation, multi-Si
- market for wood chips, wet, measured as dry mass
- hydrogen production, gaseous, 25 bar, from gasification of woody biomass in entrained flow gasifier, with CCS, at gasification plant
- hydrogen production, steam methane reforming
- carbon dioxide, captured at hydrogen production plant, pre, pipeline 200km, storage 1000m
- electrolyzer production, 1MWe, AEC, Stack
- electricity production, nuclear, pressure water reactor
- market for water, deionised
- market for water, deionised
- market for water, deionised
- treatment of wastewater, average, wastewater treatment
- Others
